SEMBCORP AWARDED FIRM AND DISPATCHABLE RENEWABLE ENERGY POWER PROJECT IN INDIA

India, November 11, 2025 – Sembcorp Industries, through its wholly-owned renewables subsidiary, Sembcorp Green Infra Private Limited (Sembcorp), has been awarded a 150MW¹ Firm and Dispatchable Renewable Energy (FDRE) power project by SJVN Limited. The build-own-operate project is part of SJVN's 6,000MWh (1,500MW x 4 hours) tender for assured peak power from Inter-State Transmission System-connected renewable energy projects integrated with energy storage systems.

Sembcorp will install approximately 750MW¹ comprising solar and battery energy storage systems (BESS) to meet the contracted capacity. Subject to the execution of a 25-year power purchase agreement with SJVN, the project is expected to achieve commercial operation within 24 months of signing and will be funded through a mix of internal funds and debt.

Mr A Nithyanand, CEO, Renewables Business, India, Sembcorp Industries, said, "This FDRE project award marks a significant milestone in our journey to deliver reliable, clean energy solutions in India. With a secured development pipeline of over 4GW in solar and wind capacity, and more than 1.4GWh of BESS, Sembcorp is well placed to support India's growing need for flexible and round-the-clock renewable power."

With this latest win, Sembcorp's gross renewables capacity in India has surpassed 7.6GW¹. Globally, Sembcorp's renewables portfolio stands at 20.1GW¹, including acquisitions pending completion.

- End -

¹ Energy storage capacity is represented in MWh / GWh
